

POWERING PARTNERSHIPS IN MOTION

Premium Power Transmission & Motion Control Solutions

Tap Into Expert Advice

In a market flooded with catalog ordertakers, Fagan Industries stands apart. We are a multigeneration technical partner dedicated to the New England manufacturing landscape. Proudly established by a service-disabled veteran, we operate with a missionfirst mindset, bringing military discipline to every partnership. We don't just quote part numbers; we engineer solutions that keep your operations running.

Deep Technical Pedigree

We aren't guessing. Our team includes industry veterans with decades of direct manufacturer experience -including 20+ years inside THK. When you have a complex application, we bridge the gap between your engineering constraints and the factory floor.

We've Got Your Back (24/7)

Production doesn't stop at 5:00 PM. Neither do we. We are known for our "always-on" service, available 24/7 to tackle urgent breakdowns or complex technical challenges. Your uptime is our priority.

Choose From The Best

We carefully curate our product lines, partnering only with the best manufacturers in the industry. We have forged strong relationships with top-tier partners like THK, Helix, and Cleveland Gear to ensure you get unmatched performance.

INDUSTRIES SERVED

- **Robotics & Automation**
- **Medical & Life Sciences**
- **Heavy Industry & Material Handling**
- **Food, Dairy & Packaging Technologies**
- **Electronics, Imaging & Data Technologies**
- **Energy, Mining & Infrastructure Systems**

PORTFOLIO

- Caged Ball LM Guides
- Ball Screws
- Actuators
- Cross-Roller Rings

- Roller Pinion Systems (RPS)
- Precision Brakes
- Clutches
- Torque

- Enclosed Worm Gear Drives
- Speed Reducers
- Custom Helical Gearing.

- Composite Disc Couplings
- Servo-Class Couplings
- Adjustable Speed Drives

- Ball & Roller Bearings
- Slewing Rings
- Custom Engineered Bearings
